

ACI Grade 1 Field Testing Technician

Recent Session AVAILABILITY

ACI-IL Chapter is pleased to announce unforeseen room for additional attendees in the upcoming certification session on November 30th and December 1st and 2nd for Grade I Field Testing Technician review session. This is a joint Lakeland Community College session with the first day being set aside for the IDOT class.

ACI-IL Certification Facility in Elmhurst at 650 W Grand Suite 106 .

This session is scheduled to be conducted at the ACI-IL Certification Facility in Elmhurst.

For the ACI-IL Grade I Field Inspector portion, the review on Day 1 (December 1st) is not a straight lecture format but filled with questions to promote attendee interaction. Information is communicated through power point presentations, videos and hands-on practice on concrete with the actual test equipment used in the examination. These review sessions have proved to be very helpful in preparing for the written and practical examinations on Day 2, (December 2nd). Go to the ACI-IL website at www.aciillinois.com to see further details concerning this or other certification sessions or call Nicole Galati at **(847) 635-1390** to register.
