**The Illinois Chamber strives to provide the Illinois business community with timely information to ensure employers are up-to-date in all realms of business.**

Workers' Compensation is no different. This confusing and oft-abused statute is one employers and their employees need to be familiar with to in order to stay in compliance. This conference is designed not only to inform, educate and assist employers on how to be in compliance, but also to show employers how to reduce their workers' comp costs in the process.

### Keynote Speaker:

**Shauna L. Margolis, MD**  
Attending Physician,  
Shirley Ryan AbilityLab

Shana L. Margolis, MD is an attending physician at the Shirley Ryan AbilityLab formerly known as the Rehabilitation Institute of Chicago. She is also an instructor of Physical Medicine & Rehabilitation in the Northwestern University Feinberg School of Medicine.

Shauna will discuss chronic pain being a nationwide epidemic, leading to decreased functionality, productivity, and significant health care costs. She will cover how interdisciplinary pain management is an evidence based treatment approach designed to empower patients to manage their pain, maintain a healthy lifestyle, and return to work. When proper pain management strategies are applied, patients are able to improve their function and minimize their medication burden.

### Agenda
