

CONCRETE PAVEMENT MYTHS

IRMCA would like to invite you to attend the eleventh webinar in our Free Promotion Webinar Series which will be on July 21st at 12:00 PM CST titled **Concrete Pavement Myths**. This webinar will debunk several myths regarding concrete pavements such as all concrete pavements need to have reinforcement and the more cement you put in a mix the better. Tune into this webinar to increase your knowledge on concrete pavements.

Concrete Pavement Myths

Speaker:

Luke McHugh P.E., Senior Director Local Paving, National Ready Mixed Concrete Association

Date and Time:

RESCHEDULED for July 21st, 2021 at 12:00 PM CST

Webinar Description:

We will review and debunk some of the myths about concrete pavements. Topics include more cement is better, we need to add steel in concrete pavement, adding steel increases load capacity, dowels are required at all joints, a thicker aggregate base helps support heavier loads, my pavement failed because it cracked, concrete is more expensive than asphalt, and more.

IMPORTANT NOTE: TO ATTEND THE WEBINAR ON JULY 21st AT 12:00 PM CST, YOU WILL NEED TO CLICK ON THE LOGIN INFORMATION AT THE BOTTOM OF THE REGISTRATION CONFIRMATION EMAIL THAT YOU RECEIVE FROM EVENTBRITE. YOU CAN COPY AND PASTE THIS ZOOM WEBINAR LOGIN INFORMATION INTO YOUR CALENDAR.
