

SYSDYNE - March 2023

## **Sysdyne Technologies Webinar Tomorrow, March 21 at 12:30 PM ET: How Interoperability Changes the Game - Value Beyond Cloud-Native Technology**

Didn't get to join us for CONEXPO-CON/AGG? No worries, register now and we'll see you online for this all-star webinar tomorrow afternoon.

Not all batch, dispatch and delivery management offerings are created equal. Terms like Cloud, Integrations, Service & Support, Moving Fast, Customer Experience, APIs, AI, Machine Learning, and more are words thrown around by technology vendors - but what does it all mean for you?

The banner features a background of grey gears. In the top left corner is the SYSDYNE logo. The main text is centered and reads: **HOW INTEROPERABILITY CHANGES THE GAME** in large, bold, black letters, followed by **VALUE BEYOND CLOUD-NATIVE TECHNOLOGY** in smaller, bold, black letters. Below that, the date and time are listed as **Tuesday, March 21 | 12:30 ET** in orange. In the bottom right corner, there is an orange button with the text **REGISTER NOW** in white.

Hosts **Henry Lee** and **Jason Campbell** will walk through decoding the buzzwords and equip you with some important questions to ask so that you can make the most informed and right decisions for your company.

Want to learn more about the interoperability features of our **CloudBatch**, **ConcreteGO**, **iStrada**, and **SysdyneBI** solutions? **Email us now** to schedule a call.
