

Good morning,

I wanted to make you aware that Ruckit, Inc. has joined the Command Alkon team. As of today, Ruckit is a wholly owned subsidiary of Command Alkon.

This transaction combines Command Alkon's comprehensive construction materials toolset and CONNEX platform for heavy work with Ruckit's innovative solutions for digital ticketing, invoice reconciliation, and third-party hauler management for aggregate, asphalt, paving and trucking companies.

We look forward to the next phase in our combined journey as we continue to accelerate the pace of delivering innovation that drives cost savings through automation and optimization of heavy construction transportation logistics.

You can view the press release containing the [official announcement here](#).

If you have any questions, please feel free to reach out to me.
