

SYSDYNE - January 2023

See iStrada and SysdyneBI LIVE at World of Concrete!

Visit the Sysdyne Team at Booth #N1669 and learn how Sysdyne's delivery management and business intelligence platforms are revolutionizing the ready mix industry.

With **iStrada**, start eTicketing and collaborating with your customers through the iStrada web portal. While project stakeholders track deliveries in real time, the driver's app updates the portal automatically and delivers tickets electronically. Reserve your **demo** now for Tuesday, 1/17 at 2 PM or Wednesday, 1/18 at 10 AM.

Get business intelligence like never before with **SysdyneBI**. Track material demand, inventory balances, and your mix designs from dashboards built using live data across your operations, free for all **ConcreteGO** customers. Sign up for your **demo** Wednesday, 1/18 at 2 PM or Thursday, 1/19 at 11 AM.

Book your demo today and be entered to win a new iPad!

About SYSDYNE

Sysdyne Technologies is the leading Cloud software provider for the ready mixed concrete industry. Our goal is to assist concrete producers in leveraging the latest cloud technology to improve production efficiency and their bottom line. Sysdyne's fully integrated product suite includes **CloudBatch™** Batch Control, **ConcreteGO®** Cloud Dispatch, and **iStrada®** Cloud GPS/Truck Tracking.

To find out more, contact your local Sysdyne representative by emailing sales@sysdynetechnologies.com, visiting our website and using the **LIVE CHAT**, or by calling 203-327-3649.

Thank you,
Sysdyne Team
