

Sysdyne Blog - September 2021

Sysdyne will be attending NRMCA's ConcreteWorks 2021!

Sysdyne and INFORM will be exhibiting at this year's NRMCA's ConcreteWorks (**booth #416**) at the Gaylord Palms Resort & Convention Center in Kissimmee, Florida from September 30 – October 4, 2021. Stop by to discover the future in Concrete Dispatch Optimization and Cloud Technology that is taking the Concrete Ready Mix industry by storm.

The banner features the Sysdyne logo in the top left and the INFORM logo in the top right. In the center, three interlocking gears are shown: two grey and one orange. Below the gears, the text 'NRMCA'S CONCRETEWORKS 2021' is written in a bold, green, sans-serif font. Underneath that, the tagline 'CELEBRATE COMMUNICATE ELEVATE' is written in a smaller, grey, sans-serif font. In the bottom right corner, there is an orange button with the text 'LEARN MORE' in white, sans-serif font.

Sysdyne Technologies, a leading Cloud solutions provider in the ready-mixed concrete industry based in Stamford, CT, and INFORM, a prominent player in digital decision making with AI technology based in Aachen, Germany, established a partnership to provide advanced dispatch optimization for ready-mixed concrete producers.

“Optimization as a Service (OaaS) is a new concept in the ready-mix industry. Offering our industry leading AI algorithms to Sysdyne’s cloud-based dispatch solution provides substantial gains in truck productivity and on-time performance to many concrete producers”, said Thomas Bergmans, SVP of Logistic Division at INFORM. “It allows dispatchers to move more payloads with fewer trucks each day.”

In search of more information to improve your concrete production workflow? **Contact** one of our sales representatives today and learn how our cutting-edge cloud-native software can boost your productivity and efficiency.

We invite you to stop by our booth **#416** to learn how Sysdyne is leading the digital revolution in the Ready Mix industry. We look forward to meeting you at this event!
