

LEADING CLOUD SOFTWARE PROVIDER FOR THE CONCRETE INDUSTRY

## Cloud Batch Helps Save Material Costs Using Real-Time Inventory: Blog by Henry Lee

"Pioneer Cloud Batch gives you total control over your raw materials in real-time. Concrete producers can save material costs by allowing managers to closely monitor the batch process and material usage and make prompt adjustments to save materials without interfering with the loading cycle."

– Henry Lee, Sysdyne Technologies.

A photograph of Henry Lee, a man with glasses wearing a blue and white checkered shirt, sitting in an office chair. The background is a faded image of a concrete mixer truck. Overlaid on the left side of the image is a quote in bold black text, a 'LEARN MORE' button, and the Sysdyne logo and name in the bottom right corner.

**"The issue is reconciling inventory management when the numbers don't match up between Batch and Dispatch because manually-adjusted materials are not being updated. With Cloud batch, you see inventory usage in real time."**

– Henry Lee, Sysdyne Technologies
