

Lawrence Kaiser is the Sr. Project Manager in the Engineering Design and Infrastructure Group of GCP Applied Technologies (formerly W. R. Grace & Co.). He began his career at Grace in 1997. Prior to joining Grace, he had held positions at Jacobs Engineering Group in Construction Management, Cooper Industries and Boeing Corporation as a Facilities Manager, and MacDermott Associates as Structural Design Engineer.

His educational background consists of a Bachelor of Science in Civil Engineering from the University of Arizona, a Masters in Construction Management from Washington University in St. Louis, and a Masters in Business Administration from the University of Missouri – St. Louis. He is currently a licensed Professional Engineer in the State of Missouri.

His current work at GCP involves concrete durability and infrastructure bridge deck waterproofing product introductions, specification quality assurance review, and technical training in the United States and Canada.
